MEDISYN

Advanced **Medical** Services & Applications

Strategic Mission and Vision

The Mission of Hellenic Cooperative of Laboratory Doctors “**MEDISYN**” in 2013-14 is to:

- a. expand methods, systems, and invest in recourses , in order to become the Leading Medical Services Organization in the eyes of its members, partners, the State and the private market, with unparalleled corporate governance and strong organization results
- b. be the leading and the guiding force of the Laboratory members, as the primary enabler and catalyst of their successful repositioning as reference Laboratories/Small Businesses in the developing primary health care market of Greece.
- c. be a profitable and financially healthy Cooperative, which rewards its members with dividends or reinvests these in an optimum manner serving members’ best interest

History and Economic Growth

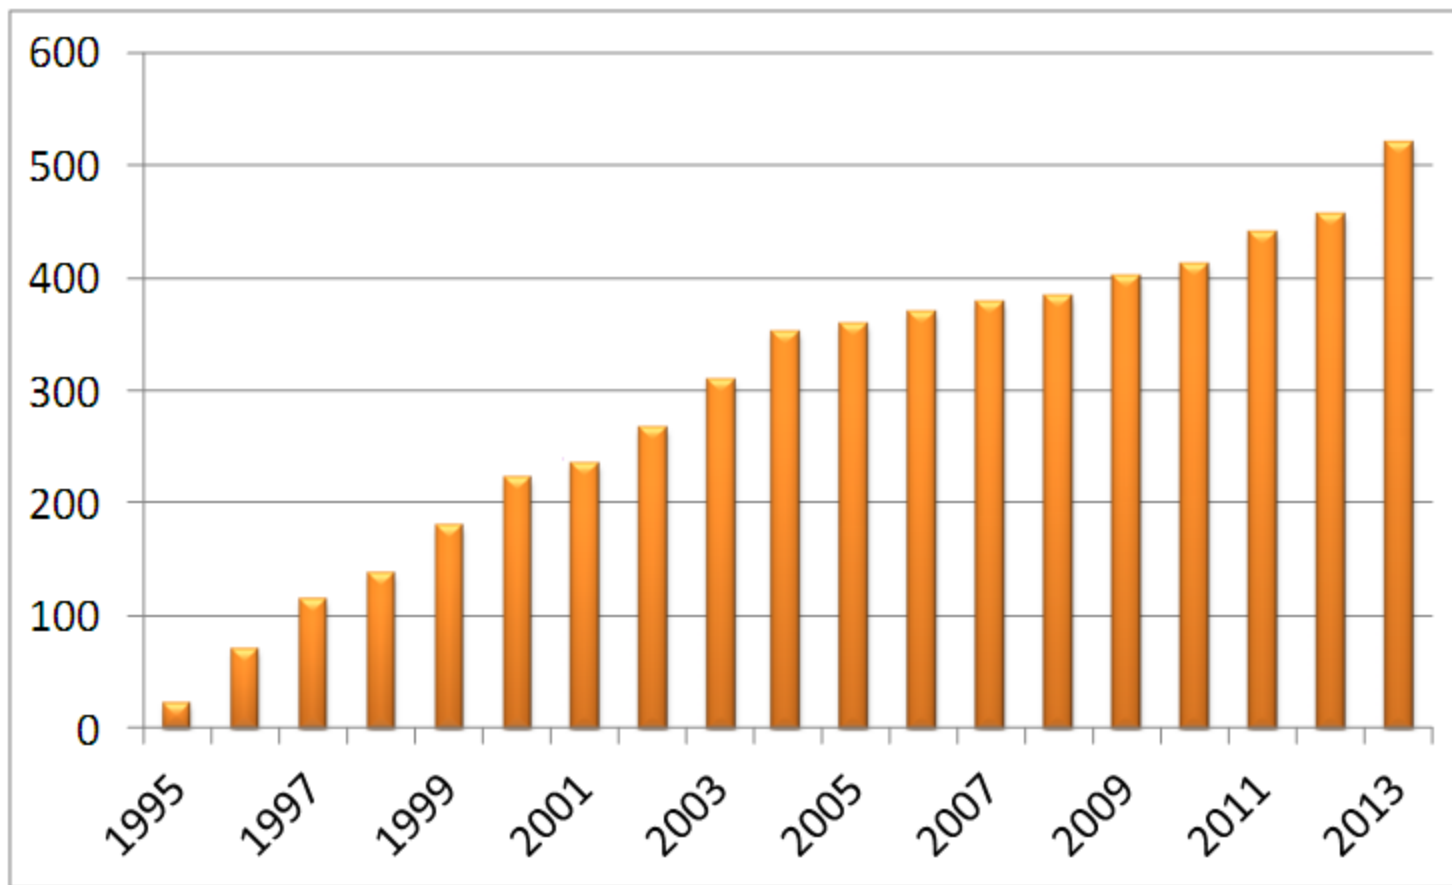

History and Economic Growth

- ❖ Our company -Medisyn- emerged from the “vision” of a cell of Biopathologists (Microbiologists) about 19 years ago. The main requirements were, **the reliability of the laboratory test results** and **the achievement of scale economies**, mainly for the analysis services but also for the consumables.
- ❖ From day one, this idea was received with enthusiasm and very quickly became a reality, opening the first laboratory in December 1995 with 22 founding members.
- ❖ The reliability of the results contributed to the rapid development of the number of members and subsequently to the increase of the samples received per day, the number of executed tests and finally the annual turnover.

History and Economic Growth

❖ Number of members MEDISYN

History and Economic Growth

Primary Healthcare Diagnostic Network (Franchise)

Primary Healthcare Diagnostic Network (Franchise)

Laboratory Doctors Cooperative
MEDISYN
Advanced Medical Services & Applications

MEDISYN using its full potential and evaluating the progress, develops a network «LABORATORIES OF TOMORROW».

The Iatrica Network:

- ❖ 140 Medical Laboratories with presence all over Greece
- ❖ It continues to grow constantly to provide P.H.S. services for all the interested civilians, insurance organizations, fund of P.H.S.
- ❖ Follows certified ISO procedures and quality assurance, with internal and external quality controls under the aegis and supervision of MEDISYN
- ❖ It is being supported from a special healthcare portal, phone call center and healthcare e-card.

Iatrica is a Certified Medical Network in the Primary Health Care segment.

The network consists 140 members throughout Greece, which are either Clinical Microbiologists or Radiologists Private Diagnostic Laboratories.

In order to participate in the Iatrica Network, **each member must comply with strict criteria**, such as state of the art technological equipment, ISO 9001 certification, Quality Control Accreditation and Medical Waste Management.

All members have a **common company identification** and follow the **same business strategy**, in order to achieve common goals and drive the development of Primary Health care to patients.

Ένα απρόσωπο αποτέλεσμα
ή προσωπικό ενδιαφέρον;

Παίρνουμε τις εξετάσεις σας... προσωπικά!

Κάθε διαγνωστικό κέντρο μπορεί να σας δώσει ένα αποτέλεσμα για τις εξετάσεις σας. Αυτό όμως που κάνει μοναδικά τα διαγνωστικά κέντρα που ανήκουν στο πανελλαδικό δίκτυο Iatrica, είναι η προσωπική επαφή που κερδίζουν με κάθε εξεταζόμενο. Εξαιτίας! Τα μικροβιολογικά ή οκονολογικά κέντρα μας διαθέτουν υψηλή επιστημονική εξειδίκευση και τεχνολογική υποστήριξη για να σας δίνουν έγκαιρα και έγκριμα αποτελέσματα. Ακόμη και αυξημένα! Αποτελέσματα που μπορούν να αξιολογηθούν πλήρως από τον γιατρό σας!

Πιστοποιημένη υπηρεσία φροντίδας για όλους σε 140 κέντρα στην Ελλάδα
